NUMBER 112

PLEDGE AID TO THE U.S. BONDS

At the meeting held last evening of the factory heads, business men and bankers called to discuss the sale of Liberty Bonds in the City of Richmond, a very liberal plan was advanced by the bankers of Richmond for assisting those who desired to purchase the bonds. The Banks will loan 90% of the par value of any bond purchased, at the rate of 3 1/4% interest, not to exceed one year, for sums not in excess of \$500.00. This very low rate is made in consideration of the war time emergency. In other words, if one wishes to buy a \$100 bond it will be necessary to pay down \$10.00 and your bank will loan you \$90.00 for one year payable in monthly installments of \$7.50 or more if desired, at 3 1/4% interest. Bonds can be had for \$50.00 on a similar plan. By this means a great many people, who otherwise would not think they could purchase bonds, will be able to buy a bond and support the Government.

The meeting was attended by the heads of practically every Richmond factory and very keen interest was shown in the matter at hand. Many reasons were advanced why everyone should do their bit. The factory heads will be supplied with circulars regarding the bonds and cards with the data will be distributed to every man in Richmond, together with an application blank. Applications can be taken up directly with any bank in Richmond or through the factory heads. The date of subscription closes June 15th. It is up to the people of Richmond to do their bit in saving and investing for victory and liberty.

The concert room of the Hawley Music Store at 721 Macdonald avenue was filled to overflowing last evening for the violin recital of the pupils of Prof. Charles Blank. The numbers were well chosen and skillfully rendered by the various ones taking part.

Music teachers of this city are rapidly finding the Hawley concert room a splendid place for recitals, special attention having been given to the room's acoustics.

"Bunk." That's the manner in which Superintendent J. F. Brooks, characterized the following story in the "Pacific Builder," relative to the Standard Oil company of California, erecting a \$140,000 office building here. It follows.

"Architect Washington J. Miller, 417 Market street, states that plans for the three-story and basement brick and steel office building to be erected at Richmond by the Standard Oil company are now being revised. When plans are completed work will be carried out by P. J. Walker & Co., Monadnock building.

MIRAMAR BALL TO BE HIT OF THE YEAR TONIGHT

RED CROSS JUST AS IMPORTANT TO AMERICA IN WAR CRISIS AS DEFENDERS

The Army and Navy form two, and to bring them back as nearly safe and sound as possible. The only way in which we can render this help to the boys at the front is through the Red Cross. The Red Cross came into being during the Crimean War in 1859. Shortly after at Genoa, Switzerland, a conference was held and later in 1906 at The Hague the Red Cross Treaty was signed.

WHAT THE NATION STANDS FOR

Of course nationalism goes wild now and then. It has its excess for which the penalty is dire. But equally dire is the penalty for a slack, or extinguished, or non-existent nationalism as China and India show.

While the errors of excessive nationalism cover the pages of history with epical tragedy, the weakness of an ebbing nationalism provides chapters that are read only with pity and contempt.

Socialists and sentimentalists—men like Bryan and Dr. Jordan—have the Tolstian view that life should be one long sweet dream of brotherly love, and that the United States should adjust itself to such view, regardless of the wolves surrounding it and ready to pull it to pieces.

But there are other values in life than ease and comfort and oratory. There are the means whereby men live—bread and meat, clothes and shelter, physical comfort and bodily welfare. The pacifist element thinks of these things as already attained, and ignore the means by which they were attained and are to be preserved and improved.

But of these things no man can provide in sufficiency by himself. The frontiersman endures hardship as a matter of course and the barbarian periodically starves. The ordered and provided life is possible only in complex communities and by virtue of the government. Industry and commerce, however due to individual initiative and corporate enterprise, cannot dispense with governmental protection and encouragement as the history of every foremost nation attests.

Competition exists among nations as it does among the individual units of each nation. Socialism would destroy the internal competition and the world empire aimed at by Germany would destroy international competition.

But socialism has not yet been rendered into fact, and world empire always has deteriorated in energy within and in resistance by those forcibly included. Socialism is a dream, which if realized would result in loss of individual initiative and loss of enterprise. The stay of progress is dry rot.

Empire, or a hard-and-fast international federation by depriving subject peoples of the stimulus of competition, would similarly reduce civilization to a static condition. Example, China. Sentimentalists claim that the price of progress is too high. We admit that its cost is terrific. Evolution's cost from the lowest to the highest state has not been only enormous, but also enormously cruel. But what is to be done about it?

To refuse the price but brings a greater penalty upon mankind. It is better to go forward by means of sacrifices than to drop back only to rot and die. If the women of the world should regard the pains of motherhood as too high a price for them to pay, human life upon the earth soon would end. There is no substitute for motherhood. There is no alternative, no middle course.

If we do not choose to be nationalistic, we choose to be shameful. If we are not willing to pay the patriotic price, we shall suffer the cruel penalty of defeat. And the mother who would see the nation perish rather than have her son suffer or die in

its defense corresponds very closely to the woman who would see the race perish from the earth before she would suffer the pains of bringing children into the world.

WHAT THE ALLIES NEED

What our allies need from the United States is first food and credit; then munitions and transportation over seas; immediately and all the time, aid in sweeping the seas of German pirates; and finally an army on the fighting front.

Happily, the order of urgency corresponds closely to our state of preparedness. Credit and shipments are ready. Government and industry are doing their utmost to supply ships for transportation. The navy is taking over its share of guarding the seas, setting the allied fleets free for service in European waters.

Land forces for Europe, least ready and slowest in preparation. They have to wait on congress. Congress is inefficient, and is patriotic only with its vocal organs. It doesn't act and there are few members of congress who would forego making a speech if by so doing a battle could be won. The speech is a personal affair with each of them, and an opportunity lost never could be regained, but if the country were to lose a battle it might win a victory later. That is the view of it taken by the pompously braying congress which has wasted most of thirty odd days since the declaration of a state of war.

Nero fiddled while Rome burned, and the house and senate disengages while Wilson waits for an army.

Entirely too many Americans are banking on some miracle that will keep us out of the actual fighting.

U-boats are on the job, and not loafing, while plans to catch or destroy them are only in the making.

By the time the war tax bill gets to the senate, senators will have a fair idea of what the people want out of.

Peace talk and piracy were never co-workers—that is one reason Berlin isn't believed by the rest of the world.

Leaving footprints in the sands of time is a heap-safer than leaving fingerprints in the annals of crime.

At that, it isn't necessarily a reflection on a man's courage to say he prefers the dinner call to the call to the colors.

It might help some men to be made to practically demonstrate the difference between discussing farm work and doing it.

Bill's U-boats are doing more to uphold autocracy than his mighty armies, but reckoning time is just around the corner.

Maybe Bill will "holler 'nough" when he hears that Liberia is against him.

Some agricultural department reports would be bettered with the alarm censored out.

Hard to figure any benefit in telling people now they may have to go hungry next winter.

WITH THE ANGLERS

Striped bass still continue to run good in the South Channel of the San Pablo canal just north of the Standard Oil refinery and off the south waterfront.

Off Antioch some excellent catches of black bass and salmon are being made.

Red-tailed perch, considered the finest specie of some of the small bay water food are being caught in large numbers off the waterfront near the Point Orient docks.

Trout are biting good on the San Pablo and Wild Cat creeks. As yet the largest trout caught has measured 10 inches.

**ERICK ERICKSON IS BECOMING
SLUGGING DEVIL FOR THE SEALS**

Three pages of press "dope" from the headquarters of the San Francisco Baseball Team of the Pacific Coast League "boiled" down gives us the following information: "That the Seals are in excellent hopes of winning the pennant." "That Oakland is suffering from an awful slump." "That Wolverton has it on Howard, because the Seals are more evenly balanced and not in need of relief." "That Del Howard is a farmer, and proud of it." "That Erick Erickson, the blonde Viking and a distant relation of Left Erickson, first white man to land in North America gives promises of becoming a slugging fool." "That's all."

**BIFFS, BUNTS AND BOBBLES FROM ALL
PARTS OF THE STATE BUSH LEAGUE**

WITH S. O. TEAM.
Al Heister will amble at second base tomorrow for Monte Pfy's Chamber of Commerce team of Oakland.
EATS RED PEPPER.
Charley Brichman, who will play first base for the Single Elks tomorrow has been eating red pepper lately to be full of "pep" for the game. If Charley topples over while reaching for a low one, he'll reach clear to third base.
"Dutch" Schram says "Charley would make a good blockade to keep the German subs from coming out of Hellgoland Bright—but be sure that no mistakes occur."

**WELL NOW, THIS CROCKETT LEFT
IS RATHER
SUDDEN?**

(Bakersfield Post)
"Those Richmond Elks don't have to worry about securing future games. There's a team right here composed of Standard Oil employees who can give the best in the California bushes a good time." "If the Richmond management wants something of a surprise this is the team that can deliver the goods."

DIAMOND NOTES

CONNICK HERE.
Jimmy Connick, who used to amble about the second sack for the Elks in this city will come here again on Sunday with the Crockett Parlor Native Sons. Connick is fast on the field but erratic as a batter.

"HUNKY" HITTING 'EM.
SEATTLE, May 23 — "Hunky" Shaw, formerly of Richmond, Cal. is knocking the cover off the ball for the Tacoma Wizards. "Hunky" is one of the best hitters in the Northwest League this season. His batting is very much like that of "Cutey" Cunningham who played here last year.

SMOKE OF BATTLE.
Curtain fire, hand grenades, gas helmets and Red Cross work will come in handy at the game of the Soldiers and Single Elks at the First street grounds tomorrow.

**MOTHERS CLUB IN

Gravity is Not the Test for Gasoline

The specific gravity test is worthless, as a test of gasoline quality.

So says the U. S. Bureau of Standards. Boiling points comprise the only real test, because easy starting, quick acceleration, maximum power, depend absolutely on boiling points. The gravity-hydrometer tells you nothing about the boiling points of gasoline.

RED CROWN
The Gasoline of Quality

Is straight-distilled, and thus has its boiling points in a gradually rising, unbroken chain—low boiling points for easy starting, medium boiling points for quick and smooth acceleration, high boiling points for power and mileage.

No mixture can contain an unbroken chain of boiling points—the hundreds of intermediate points are missing. Be sure and get Red Crown. It's pure gasoline—not a mixture.

JANE URBAN SCORES HIT AT ORPHEUM

Sailing along smoothly on the sea of success, with its new mid-summer shows apparently "just what doctor ordered," the Orpheum enters on its second week of its summer season with fully as brilliant a prospect during the coming few days as could be desired by any theater management in the land.

"Somebody's Luggage" a riotous farce comedy in three acts in which James T. Powers, the famous musical comedy star produced at the New York Casino with success last winter has been procured for Jane Urban's twenty Orpheum Players. "Somebody's Luggage" will have its initial production today at the Orpheum and from all accounts there should be a gale of gaiety in evidence in the three act play.

A SUPERB DISPLAY OF SPORT CLOTHES

And You Can Get Outfitted on Credit

Sport Suits at \$20, Sport Skirts at \$9.50, Silk Dresses at \$25—that's a tempting group of summer wearables at moderate prices. Is it not, Madam? Yes, it certainly is, especially in view of the fact that prices of clothes have been going up for a year or so.

But that isn't all. You can buy one of these beautiful Suits, Dresses or Separate Skirts by making only a small payment. You may open an account and have your summer clothes charged. Very few stores, as you know, will grant you this privilege. So be sure you come to the right place. Do not forget the numbers.

CHERRY'S have two stores in Oakland—a store for Ladies at 513 Thirteenth street and an exclusive Men's Shop across the street at 528 Thirteenth street.
